

Year 2 Maths Checklist

Name: _____ Date: _____

Number - Number and Place Value

I can:

count in steps of 2, 3, and 5 from 0, and in tens from any number, forward and backward	
recognise the place value of each digit in a two-digit number (tens, ones)	
identify, represent and estimate numbers using different representations, including the number line	
compare and order numbers from 0 up to 100; use <, > and = signs	
read and write numbers to at least 100 in numerals and in words	
use place value and number facts to solve problems.	

Number - Addition and Subtraction

I can solve problems with addition and subtraction:

using concrete objects and pictorial representations, including those involving numbers, quantities and measures	
applying my increasing knowledge of mental and written methods	
recall and use addition and subtraction facts to 20 fluently, and derive and use related facts up to 100	
add and subtract numbers using concrete objects, pictorial representations, and mentally, including:	

Year 2 Maths Checklist

Number - Fractions

I can:

recognise, find, name and write fractions $\frac{1}{3}$, $\frac{1}{4}$, $\frac{2}{4}$, and $\frac{3}{4}$ of a length, shape, set of objects or quantity	
write simple fractions for example, $\frac{1}{2}$ of 6 = 3 and recognise the equivalence of $\frac{2}{4}$ and $\frac{1}{2}$	

Measurement

I can:

choose and use appropriate standard units to estimate and measure length/height in any direction (m/cm); mass (kg/g); temperature ($^{\circ}$ C); capacity (litres/ml) to the nearest appropriate unit, using rulers, scales, thermometers and measuring vessels	
compare and order lengths, mass, volume/capacity and record the results using >, < and =	
recognise and use symbols for pounds (£) and pence (p); combine amounts to make a particular value	
find different combinations of coins that equal the same amounts of money	
solve simple problems in a practical context involving addition and subtraction of money of the same unit, including giving change	
compare and sequence intervals of time	
tell and write the time to five minutes, including quarter past/to the hour and draw the hands on a clock face to show these times	
know the number of minutes in an hour and the number of hours in a day.	

a two-digit number and ones	
a two-digit number and tens	
two two-digit numbers	
adding three one-digit numbers	
show that addition of two numbers can be done in any order (commutative) and subtraction of one number from another cannot	
recognise and use the inverse relationship between addition and subtraction and use this to check calculations and solve missing number problems.	

Number - Multiplication and Division

I can:

recall and use multiplication and division facts for the 2, 5 and 10 multiplication tables, including recognising odd and even numbers	
calculate mathematical statements for multiplication and division within the multiplication tables and write them using the multiplication (\times), division (\div) and equals ($=$) signs	
show that multiplication of two numbers can be done in any order (commutative) and division of one number by another cannot	
solve problems involving multiplication and division, using materials, arrays, repeated addition, mental methods, and multiplication and division facts, including problems in contexts.	

Year 2 Maths Checklist

Geometry - Properties of Shapes

I can:

identify and describe the properties of 2-D shapes, including the number of sides and line symmetry in a vertical line	
identify and describe the properties of 3-D shapes, including the number of edges, vertices and faces	
identify 2-D shapes on the surface of 3-D shapes, [for example, a circle on a cylinder and a triangle on a pyramid]	
compare and sort common 2-D and 3-D shapes and everyday objects.	

Geometry - Position and Direction

I can:

order and arrange combinations of mathematical objects in patterns and sequences	
use mathematical vocabulary to describe position, direction and movement, including movement in a straight line and distinguishing between rotation as a turn and in terms of right angles for quarter, half and three-quarter turns (clockwise and anti-clockwise).	

Geometry - Position and Direction

I can:

interpret and construct simple pictograms, tally charts, block diagrams and simple tables	
ask and answer simple questions by counting the number of objects in each category and sorting the categories by quantity	
ask and answer questions about totalling and comparing categorical data.
